Crown Barware Wine Cooler

CROWN BARWARE

Crown Barware's Beverage Service collection is where considered design meets professional service. Each piece is crafted in stainless steel with
a matte finish that resists fingerprints and holds its appearance through the demands of a full service, bringing a polished look to every pour and presentation.

The collection is built around clean, modern lines, with straight profiles and ribbed detailing across selected pieces adding texture and visual interest
to the overall look. The finish reflects a refined aesthetic that elevates beverage presentation in restaurants and bars.

From wine coolers and champagne buckets to beverage tubs and water pitchers, the Beverage Service range offers a complete set of presentation pieces that work together cohesively. Thoughtfully designed and built to last, Crown Barware is made for those who appreciate impeccable and stylish service.
