

The Polysafe range is virtually unbreakable, durable and reliable. Made from the highest quality food grade polycarbonate, our drinkware looks and feels like the real glass equivalent.

Our diverse range of polycarbonate drinkware is designed to suit all applications and environments with its glasslike characteristics. With sound knowledge and advanced production techniques, our factory technicians have developed a unique method to strengthen the internal structure of each piece that guarantees no cracking or injection bubbles. Polysafe is one of the only companies in the world to do this.

NEW

COCKTAIL

Our unbreakable cocktail glasses are designed to present a wide range of cocktails, from mixed cocktails to built and layered creations. Perfect for the pool side, busy establishments or anywhere glass is not permitted.
