Grading System

We have included a grading system at the top of each page to assist you in selecting the perfect range for your venue.

Boutique
Contemporary designs with a point of difference. These premier cutlery ranges are new to the Australian hospitality industry.

Deluxe
This is our highest grade of cutlery, composed of an 18/10 combination of nickel and chromium – perfect for five star restaurants and exclusive hotels.

Premium
These ranges of cutlery maintain a superior polish while also offering unmatched durability.

Commercial
Ranges of cutlery perfect for high-volume environments at an affordable pricepoint. Quality that will stand up within the busiest of venues.

Healthcare
Ergonomically designed for the healthcare sector to aid users with grip and functionality.

Australian Fine China

Australian Fine China is a leading porcelain brand whose name has been strongly ingrained in the Australian hospitality market for over 100 years.

DETAILS

Continued innovation of an extensive range of tabletop products highlights the brand's commitment to quality and service. Australian Fine China offers a diverse range of shapes and styles suitable for various dining environments, from high-end establishments to casual cafés, bistros and healthcare, demonstrating its versatility and ability to cater to different customer needs.

FIVE YEAR EDGE CHIP WARRANTY

All items marked with a star throughout Australian Fine China are covered by a Five Year Edge Chip Warranty.

Refer to page 937 for more information on the Five Year Edge Chip Warranty.

Bevande

Our range of Bevande cups, saucers, creamers, teapots and platters incorporates *the perfect balance between classic design and a modern finish*, offering a wide range of basics, on-trend pieces and colours.

DETAILS

Bevande has established itself as an iconic favourite for tea and coffee serving, designed to withstand the rigours of hospitality environments. Embracing a broad spectrum of colours, available in both matte and semi-matte finishes you can elevate your tea and coffee experience with our mix-and-match approach to styling. By personalising your tabletop presentation, you have the freedom to craft a unique narrative that captivates guests and adds visual intrigue to your venue.

CHURCHILL

With over 225 years of innovation, passion and expertise, Churchill is dedicated to performance, longevity, and continuous improvement.

DETAILS

Churchill's design, market expertise, and cutting-edge technology combine to produce one of the strongest ceramic bodies in the world — Super Vitrified with a superior glaze finish to provide mechanical and thermal shock resistant pieces.

Looking to reduce the impact on the planet, Churchill has a commitment to a sustainable future that has been a part of the Churchill ethos for generations, from clay to plate.

MADE IN ENGLAND

MADE IN ENGLAND

Churchill has a long history of bringing the highest quality products to the hospitality industry. Based in the heart of the Potteries in Stoke-on-Trent, England since 1795, Churchill has progressively developed and continues to manufacture many of its lines in the United Kingdom.

EDGE CHIP WARRANTY 5 YEAR SERVICE EXCELLENCE

FIVE YEAR EDGE CHIP WARRANTY

All items marked with a star throughout Churchill are covered by a Five Year Edge Chip Warranty.

Refer to page 937 for more information on the Five Year Edge Chip Warranty.

ecoglaze

ECO GLAZE

Eco Glaze offers a superior glaze finish that enhances product performance by reinforcing product stability and durability. Characteristics include reduced stain and metal marking resistance, which prolongs the life of the product. Eco Glaze is fully recyclable, meaning it has less impact on the environment.

Stonecast®

Stonecast by Churchill is a Super Vitrified hand finished range designed to suit all types of cuisines and hospitality environments.

DETAILS

Stonecast has grown from the iconic original range to innovative new designs such as semi-matte Stonecast Raw and minimal Stonecast Accents.

The nature of the ceramic manufacturing process means that every piece of Stonecast will be slightly different, making each piece unique.

MADE IN ENGLAND

MADE IN ENGLAND

Churchill has a long history of bringing the highest quality products to the hospitality industry. Based in the heart of the Potteries in Stoke-on-Trent, England since 1795, Churchill has progressively developed and continues to manufacture many of its lines in the United Kingdom.

EDGE CHIP WARRANTY 5 YEAR SERVICE EXCELLENCE

FIVE YEAR EDGE CHIP WARRANTY

All items marked with a star throughout Churchill Stonecast are covered by a Five Year Edge Chip Warranty.

Refer to page 937 for more information on the Five Year Edge Chip Warranty.

STUDIO® PRINTS

Studio Prints collections are a contemporary take on traditional studio pottery achieved by Churchill's innovative print process.

DETAILS

Studio Prints creates a point of difference for any tabletop selection.

Haze is a multi-tonal semi-matte finish, Homespun is inspired by thrown pottery, Kintsugi is a modern interpretation of the Japanese crackled design, and Raku has a reactive texture created through print and firing.

MADE IN ENGLAND

MADE IN ENGLAND

Churchill has a long history of bringing the highest quality products to the hospitality industry. Based in the heart of the Potteries in Stoke-on-Trent, England since 1795, Churchill has progressively developed and continues to manufacture many of its lines in the United Kingdom.

EDGE CHIP WARRANTY 5 YEAR SERVICE EXCELLENCE

FIVE YEAR EDGE CHIP WARRANTY

All items marked with a star throughout Churchill Studio Prints are covered by a Five Year Edge Chip Warranty.

Refer to page 937 for more information on the Five Year Edge Chip Warranty.

DUDSON

Established in 1800, Dudson boasts a proud heritage of producing tableware specifically for the hospitality market.

DETAILS

Crafted by renowned potters in Stoke-on-Trent, England, the world capital of ceramics, Dudson's tableware reflects a legacy of craftsmanship, innovation, and technical development.

The cornerstone of this iconic brand lies in its commitment to quality, with 100% of Dudson's ceramics being vitrified, twice fired, and coated with a hard-wearing superior glaze that ensures longevity, making Dudson the ideal choice for the hospitality industry.

5 YEAR EDGE CHIP ★5★ WARRANTY

FIVE YEAR EDGE CHIP WARRANTY

All items marked with a star throughout Dudson are covered by a Five Year Edge Chip Warranty.

Refer to page 937 for more information on the Five Year Edge Chip Warranty.

Organic White features Dudson's signature organic shape, a nod to a heritage as expert craft potters. Manufactured in Dudson's finest vitrified body, the collection has a subtle irregular edge and hand-thrown embossment, while providing industrial toughness to weather everyday use in a professional setting.

Finca, available in several organic shapes, draws on the heritage of the Dudson brand and creative ceramic crafts. The multi-tonal sandstone print mimics the worn textures of rustic interiors and clay work. Decorated in glaze for industrial toughness, Finca has been designed for professional use while providing a homely charm.

What sets Modest apart from other tableware collections is its hand-painted rims. These rims frame the food, drawing the eye and creating a beautiful visual contrast.

LE BALLET

THE BONE CHINA COLLECTION

'Le Ballet' by RAK Porcelain is a stunning bone china collection, characterised by its elegant ivory silhouettes, inspired by the finesse and grace of classical ballet.

DETAILS

What sets Le Ballet apart is its use of certified natural mineral powders in manufacturing, ensuring lightweight yet sturdy pieces suitable for the demands of hospitality settings. This combination of delicacy and durability makes it an appealing choice for those seeking both aesthetic beauty and practicality in their tableware.

Luzerne

Since 1947, Luzerne has brought extensive collections of beautiful and innovative designs to the world of hospitality.

DETAILS

The New Bone China ranges are twice fired at high temperatures, initially at 800°C then both body and glaze at the same high temperature of 1280°C, making it homogeneous, scratch and chip resistant.

Luzerne new bone technology is produced in Dehua, one of the world's finest ceramic capitals. New Bone China is known for its smooth, flawless glaze and refined translucency that is stronger than bone china. It has excellent resistance to extreme temperatures making it thermal shock resistant and able to withstand the daily rigours of commercial kitchens. Luzerne crockery is safe for use in commercial dishwashers, freezers, ovens, and microwaves.

Luzerne has also introduced its first ever stoneware range 'Mod', once fired at high temperatures ranging from 1200–1300°C , transforming the clay into a vitrified durable stone — like material. Both beautiful and functional, in an array of modern colours to suit a multitude of hospitality settings.

EDGE CHIP WARRANTY 5YEAR

FIVE YEAR EDGE CHIP WARRANTY

All items marked with a star throughout the Luzerne range are covered by a Five Year Edge Chip Warranty.

Refer to page 937 for more information on the Five Year Edge Chip Warranty.

MODA
PORCELAIN

Moda Porcelain from Trenton International is an organic range reminiscent of artisanal ceramic with the benefit of commercial quality, the only range of its kind that comes with a five year edge chip warranty.

DETAILS

With nine colours to choose from and designed to mix and match, Moda Porcelain has endless options to suit any tabletop. A key feature is the reactive glaze technology, that makes each piece unique with an individual variance, adding to the modern eclectic finish.

FIVE YEAR EDGE CHIP WARRANTY

All items marked with a star throughout Moda Porcelain are covered by a Five Year Edge Chip Warranty.

Refer to page 937 for more information on the Five Year Edge Chip Warranty.

NMC

A collection of vitrified porcelain that combines simplicity with versatility in *contemporary shapes and colours*.

DETAILS

NMC caters to different tastes and preferences, offering options for those who prefer the minimalist designs of Parade, the classic elegance of Homestead Olive, or the contemporary aesthetics and uniqueness of Maze Kale. Each collection is carefully crafted to provide versatility and style in porcelain tableware.

PORLAND

Since 1992, Porland has been a *market leader in new trends and design*, emphasising an environmentally friendly manufacturing process that respects the planet.

DETAILS

The Regen range exemplifies this commitment, being made from 100% recycled porcelain. By using only recycled production waste, Porland helps offset its carbon footprint, demonstrating a dedication to sustainability alongside its innovative and stylish designs.

Sango®
HOSPITALITY

Established in 1977, Sango has a *long-standing commitment to design and functionality* in tabletop solutions.

DETAILS

Inspired by sea shapes and colours, the Ora range embodies modern Scandinavian aesthetics with its minimalist design. Each piece is unique in colour due to the artisanal look glaze, providing a distinctive finish. Additionally, the Ora range offers practicality with stackable and strong products, making it ideal for the hospitality industry.

ZUMA

Zuma, our hospitality workhorse, *is crafted with a fully vitrified body and rolled edges* to ensure a strong and commercial-grade durable crockery.

DETAILS

The Zuma collection offers a choice of 13 colours, providing the ideal opportunity to mix and match colours to suit your own innovative style and cuisine.

Additionally, Zuma is produced using once-fired technology, reducing the impact of the manufacturing process on the environment while maintaining the high quality and durability expected in the hospitality industry.

HEADMASTER

CROWN
GLASSWARE

Over 90 years ago, Crown Glassware developed the first draught beer glass shapes in Australia, which are still known in the industry as Conical and Washington.

DETAILS

Crown has continued to set new standards by developing the nucleated 'Headmaster' and embossing the base of glasses to indicate W&M capacities.

More recently Crown expanded its collection to include new shapes in stemware, cocktail glasses, and tumblers.

With an enduring commitment to quality, tradition, design and innovation, Crown Glassware continues to be an industry favourite.

A collection showcasing three of Europe's leading glassware manufacturers.

DETAILS

LIBBEY
With over 200 years of experience, Libbey has become one of the world's most recognised and iconic brands. From mixology, wineglasses, and all-round glassware, Libbey has glasses for all occasions.

ONIS
ONIS is the new brand of two European glassmakers that bring authenticity and uniqueness to glassmaking. ONIS glassware is designed to make a statement and inspire professionals to add value to their drink creations.

ROYAL LEERDAM
For over 145 years Royal Leerdam has been designing and manufacturing elegant and functional glassware. Royal Leerdam is part of Leerdam Crisal Glass, a well-known glass producer in the European cities of Leerdam in The Netherlands and Marinha Grande in Portugal.

Libbey's innovation in design and manufacturing delivers durable pieces to suit any venue and taste. DuraTuff treated glassware is designed to strengthen the upper portion of the glass, increasing its resistance to thermal and mechanical shock.

+DuraTuff®

The ONIS Xtratuff treatment is applied to the upper half of the glass, adding toughness, durability and resistance to breakages. This process also reduces wear and tear of stackable glasses, helping to meet the highest professional standards in glassware.

Luigi Bormioli

Italian craftsmanship, cutting-edge technology, and innovation create the highest quality premium glassware.

DETAILS

Titanium reinforcement and pulled stem technology add strength and flexibility to stemware, while fine, laser cut rims enhance the drinking experience. Epicure Point treatment creates an extra persistent flow of bubbles.

SON.hyx is a patented formula with outstanding chemical, optical and mechanical properties. Glassware is totally transparent according to ISO/PAS IWA 8:2009, and can withstand 4,000 dishwasher cycles with no alteration in transparency.

Sparkx glassware has extremely low iron content, providing a premium transparency that remains true for over 2,000 dishwasher cycles. Sparkx is lead and other heavy metal free.

Luigi Bormioli

When it comes to precision glassware, Nude offers a complete solution for the hospitality industry. Nude is the creator and manufacturer of high quality contemporary glassware.

DETAILS

Launched in 2014, in collaboration with artists and designers, Nude has created collections which pay attention to detail whilst creating something inspirational with a sense of simplicity. Nude products are made with only one material: lead-free crystal glass, hand or machine-made, that delivers a level of transparency and delicacy unparalleled in the world of glass.

The sophisticated Nude Stem Zero range is handmade to satisfy the most discerning wine connoisseur. Its elegant, lightweight silhouette allows optimal wine bouquet development, while the tapered rim enhances flavour, ensuring an exquisite drinking experience. Stem Zero represents the pinnacle of lead-free crystal craftsmanship, with revolutionary 'Ion Shielding' technology that creates the world's toughest, yet finest crystal collection.

Paşabahçe

Since 1935 Pasabahce has been producing quality glassware focusing on design, strength and innovation. Pasabahce is now one of the three largest producers of glassware globally.

DETAILS

From wine glasses, mixology, and core basics, Pasabahce's extensive range has the right glass to suit any style or setting.

Pasabahce offers toughened glassware, engineered to withstand thermal shock, ensuring resilience against sudden temperature changes. Toughened glasses are also 4–6 times stronger than normal glassware, guaranteeing a longer lifespan and reducing replacement costs.

The Aware collection also highlights Pasabahce's commitment to the environment, with 100% recycled glass for a more sustainable planet.

POLYSAFE

The stunning Polysafe drinkware range *provides the customer experience you need* from your glassware while providing a safe drinking environment.

DETAILS

The Polysafe range is stylish, lightweight, durable and made from the highest quality food-grade polycarbonate. Beautiful to look at, it's cleverly crafted to provide a strong internal structure that guarantees no cracking or injection bubbles. This results in a rigorous long lasting product that's a dream to drink from and a smart choice.

VICRILA

With over 130 years of expertise, Vicrila is committed to producing the finest glassware that blends usability, aesthetics, and sustainability.

DETAILS

Founded in the Basque Country in 1890, Vicrila has a proud history built upon a dedication to perfecting and innovating glassmaking techniques.

Impeccable attention to detail ensures each piece of Vicrila glassware is carefully and precisely made, from the raw ingredients to the completed product.

All Vicrila glass is 100% recyclable and does not need pre-treatment to return to the production system.

ZWIESEL GLAS

SCHOTT ZWIESEL

Made in Bavaria, Germany since 1872, Schott Zwiesel has been combining tradition with contemporary aesthetics, creating elegant glassware tailored for the rigours of hospitality use.

TRITAN® PROTECT

TRITAN PROTECT
The ranges feature double the protection against stem breakage compared to conventional glasses. The specially tempered surface protects glass against scratches and increases strength and durability.

EFFERVESCENT POINTS
Discrete effervescent points are laser etched at the inside base of the bowl to improve the presentation and longevity of the bubble stream. These points help to encourage the gas to separate at the base of the bowl, which in turn causes the bubbles to spiral upwards through the full length of the glass.

CHARGING

Charging Station

INCLUDES:
1 X CHARGING SHELF
4 X CONNECTION POLES
1 X CHARGING CABLE & ADAPTOR

Item No.	Length	Width	Height
769000	447mm	267mm	33mm

The Illumina charging shelf can charge up to six lamps at once. Having multiple shelves allows you to create a compact and neat charging station for your hospitality venue. This shelf works for the Montserrat, Dominica and Aruba ranges.

KEY FEATURES

— Robust die cast aluminium body
— Complete with individual charging base
— Stepless dimmable with cold / warm switchable
— IP54 water / dust protection
— Cold / warm colour choice
— Cordless charging
— Touch On / Off
— 6 hours charging
— 9 hours operating time

GREASEPROOF PAPER

OUR AUSTRALIA

CHIEF EDITOR: THOMAS REINER

Sydney Harbour Bridge

This iconic bridge is nicknamed "The Coathanger" because of its arch-based design that joins Sydney CBD to the North Shore. It carries trains, vehicles, bicycles and pedestrians. The bridge was designed and built by the British firm Dorman Long and Co Ltd, under the direction of Dr J.J.C Bradfield, from 1923 to 1932. Originally constructed to carry six lanes of traffic plus two additional lanes on its eastern side which were originally two tram tracks. The total weight of the steel in the bridge, including the arch and the bridge span, is 52,800 tonnes, with the arch itself weighing 39,000 tonnes. About 79% of the steel used to construct the bridge was imported from England, with the rest being sourced from Newcastle NSW. The Bridge is held together by six million Australian-made hand-driven rivets supplied by the McPherson company of Melbourne. At each end of the arch stands a pair of 89m high concrete pylons faced with granite. Some 250 Australian, Scottish, and Italian stonemasons and their families relocated to a temporary settlement at Moruya, NSW, where they quarried around 18,000m³ (635,664 cu ft) of granite for the bridge pylons. The stonemasons cut, dressed, and numbered the blocks, which were then transported to Sydney on three ships built specifically for this purpose. The pylons were designed by the Scottish architect Thomas S. Tait, a partner in the architectural firm John Burnet & Partners. The pylons have no structural purpose to the load of the arch, they were only included to provide a frame for the arch panels and to give better visual balance to the Bridge. The Bridge was formally opened on Saturday, 19 March 1932. Just before the ribbon was about to be cut, a man in military uniform, Captain de Groot, rode up on a horse, slashing the ribbon with his sword and opening the Sydney Harbour Bridge in the name of the people of NSW, before the official ceremony began. He was promptly arrested.

THE MCG

Locals refer to it as simply "The G". The Melbourne Cricket Ground (MCG), located in Yarra Park, is an iconic sports stadium erected in 1853. It seats over 100,000, which is the highest capacity in the region. It's also the 10th largest stadium in the world, and the largest in the Southern Hemisphere. The G is home to the Melbourne Cricket Club.

In the many years since its construction, The G has often been renewed and updated. It also hosted the 1956 Summer Olympics, the 2006 Commonwealth Games, as well as two Cricket World Cups in 1992 and 2015.

The G is on the Victorian Heritage Register list, as well as the 2005 Australian National Heritage list. Melbourne based journalist Greg Baum has called the stadium "a shrine, a citadel, a landmark, a totem" and that it "symbolises Melbourne to the world".

BAROSSA VALLEY

Mention the Barossa Valley to anyone in Australia, and the first thing that springs to mind is that it's one of the most renowned wine producing regions in the country.

In 1837, a surveyor named Colonel William Light gave the region its name. Here's a little-known fact, though: Barossa is actually a misspelling of the Spanish town Barrosa, after which it's named. The mistake remained and today many consider the Barossa Valley one of the most famous wine regions in Australia.

Covering a land mass of almost 13 x 14 kilometres, the Barossa is home to nearly 150 world-famous wineries. Oh, and the two secondary schools in the area also have onsite wineries.

Tassie Scallop Pie

It's the envy of the world for its clean water and fresh produce. But did you know that Tasmania is also lauded for its seafood that comes from the Tasman Sea?

Australians lay claim to the Lamington, so named in honour of Queensland Governor Baron Lamington. They also duke it out with New Zealand over who invented the Pavlova. Meanwhile, Taswegians quietly concocted the delectable scallop pie. You'll find this savoury treat in most bakeries throughout Tasmania.

The local tradition of adding premium Tasmanian Sea Scallops to pies has its origins on the Hobart wharves of the early 19th Century. It's a taste sensation that continues to be a unique delicacy you can only find in Tasmania.

STEVE THE QUOKKA

Did you know that Rottnest Island, off the coast of Western Australia, got its name from a 17th century Dutch captain who mistook its diminutive marsupials for large rats, thus calling it Rotte nest?

The proper name for the mammal native to Rottnest is the quokka, and you can find them all over the island. They're most active at night, preferring to rest in the shade during daylight hours. Usually, the quokka hops and bounds on the ground, but when it needs to, it can climb trees, too. It sits on hind legs to survey its surroundings, but uses its front paws to find and pick up food.

Rottnest Island is home to roughly 10,000-20,000 quokkas – the largest known population of the creatures in the world. Because of their cute, wallaby-like appearance, they've become a major tourist attraction on the island. They're also easy to spot, and have a friendly demeanour.

In January of 2017, an enterprising little quokka dubbed Steve escaped on a rubbish barge. Western Australian police even issued an appeal for information, hoping to return Steve to his home. As of this writing, Steve has yet to be found.

ULURU: AUSTRALIA'S ICONIC NATURAL WONDER

Uluru is arguably Australia's best-known natural landmark. In 1873, Australian explorer William Gosse named the familiar red monolith Ayers Rock, after Sir Henry Ayers. The rock's formation spanned 600 million years, with Indigenous Australians occupying the area for the past 10,000 years.

Renamed Ayers Rock / Uluru in 1993 and then Uluru / Ayers Rock in 2002, the iconic landmark measures 348 metres high, 3.6 kilometres long, and 1.9 kilometres wide. The 10-kilometre Uluru Base Walk takes approximately 3.5 hours to hike.

Though many believe Uluru is the biggest monolith in the world, the title actually belongs to Mount Augustus in Western Australia.

The Queenslander Home

Between the 1920s and 30s, a new type of house emerged. We know it today as the traditional Queenslander. What distinguishes it from other styles of homes? It's most often constructed from timber and has a corrugated tin roof. Elevating the houses on stumps means they're adaptable to either uneven or steep landscapes. And that's not all. You can remove the homes intact from the stumps, or even raise, lower, reorient, not to mention relocate and reuse the houses.

You find Queenslander houses most often in Queensland, with its subtropical climate, which is more suited to this type of dwelling. In recent years, Queenslanders have been subject to community awareness and thus, local governments have put in place conservation measures to protect the "tin and timber" neighbourhoods and towns where the architectural style dominates.

We often think of master-planned estates as "cookie cutter" homes that look the same all over Australia. In Queensland, however, a modern take on the Queenslander has become common, and especially in the design of holiday homes in coastal areas.

PRINCE — INDUCTION CHAFER

Lid Position
— Opens up to maximum 90°
— Stays open to approx. 75°
— Initiate to close by pressing down gently and closes automatically and silently

EU1935/2004 Food Safe Standard Conformed

Detachable Lid
— For quick and easy cleaning

Noise Stopper
— Reduces noise when closing lid

Water Return System
— Condensation flows back to water pan instead of food

Convenient Notch
— Changing food pan easily

Hydraulic Hinge
— For smooth opening and closing of lid

Adjustable Level Support
— For a perfectly level placement when required

Capsuled Bottom
— Multi-layer bottom for fast and even heating
— Compatible for induction, chafer fuel and electric heater

18/10 Stainless Steel Body

PRINCE — INDUCTION CHAFER

1/1 Size Rectangular Chafer

18/10 STAINLESS STEEL BODY
STAINLESS STEEL & GLASS LID

Item No. 8311103

For almost three centuries Arcos has been recognised for high quality knives and specialty tools used by the world's leading chefs. This reputation is built on an ethos of research and continuous improvement in design and manufacturing.

COLOUR PROFESSIONAL

Designed for prolonged and heavy professional use

Colour Identification system
Each knife can be identified for a specific use by using the indicator on the handle. This promotes better hygiene and health for the consumer

Exclusive nitrium® stainless steel blade

The handle has a core of polypropylene (PP) and soft rubber coating on the outside. The special mixture of materials gives greater comfort and adaptability as well as being non-hygroscopic (does not absorb liquid)

Ergonomic handle

- Raw Meats
- Raw Fish / Seafood
- Raw Poultry
- Fruit & Vegetable
- Cooked Meats
- Bakery & Dairy Products

Washware & Trolleys

Flap Racks by Pujadas

The patented system allows the walls on both bases and extenders to be open or closed easily. Personalise and identify them according to your needs.

Openings for maximum cleaning

Ideal for transporting and storing

GET THE BEST OF BOTH WORLDS

— Easy to assemble and disassemble

— Stackable with other market baskets

— Reinforced double-wall (anti-shock)

— Easy customisation

WASHING
Improved cleaning

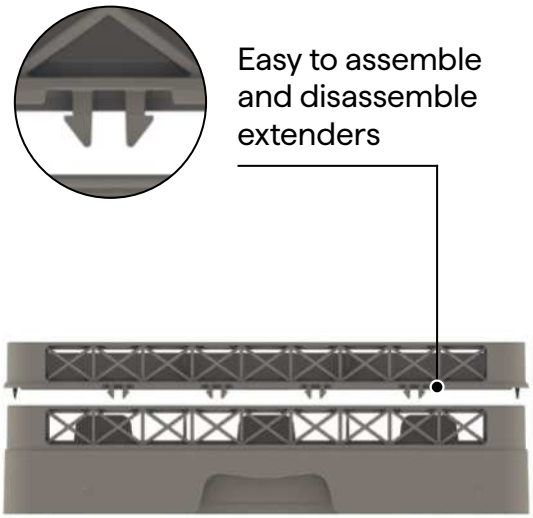

TRANSPORT
Improved security

STORING
Improved hygiene

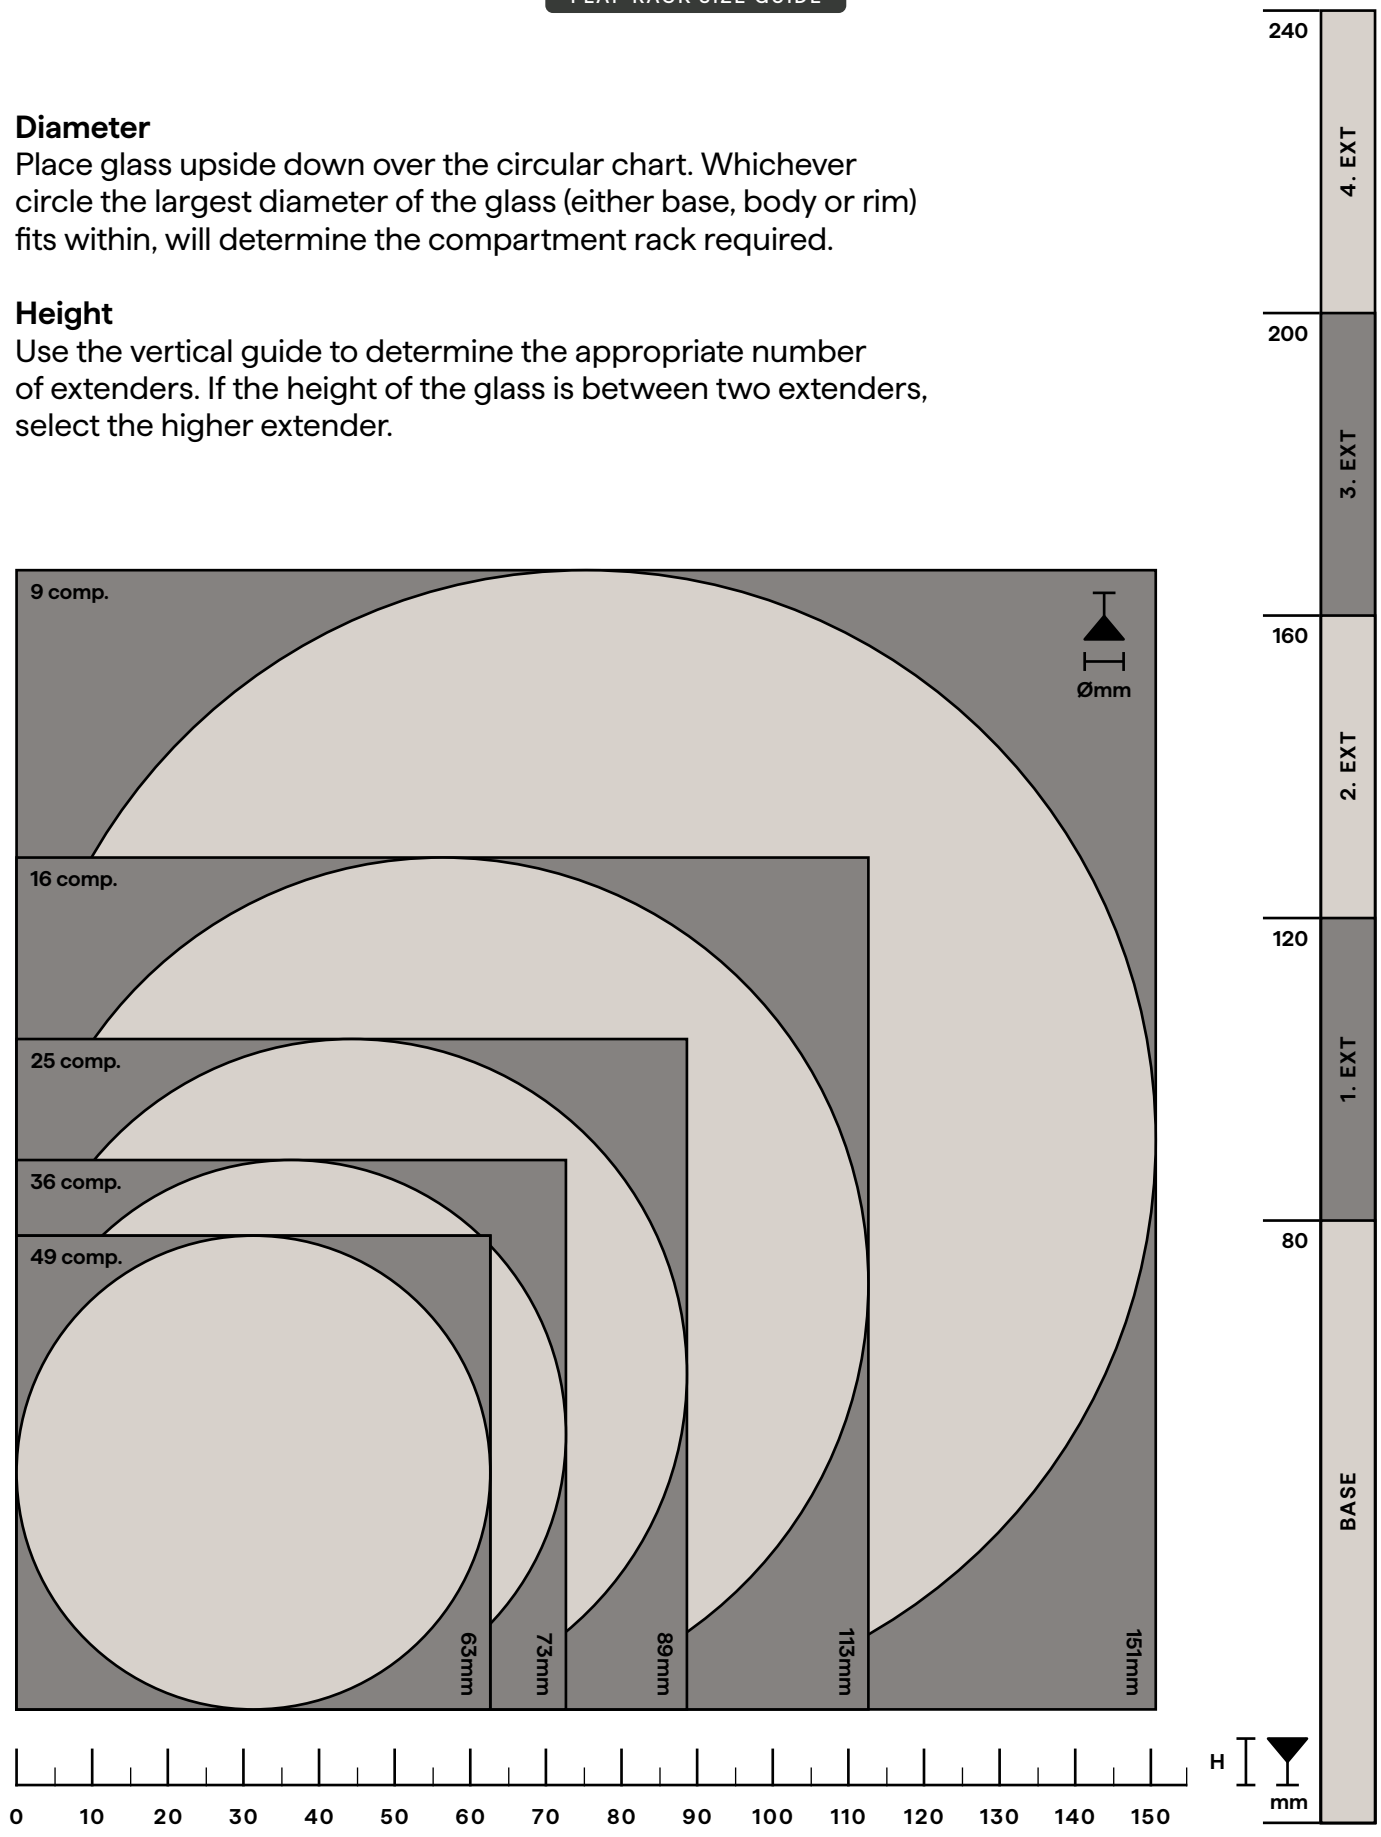

Highly resistant to chemicals and temperatures up to 95°C

FLAP RACK SIZE GUIDE

Diameter
Place glass upside down over the circular chart. Whichever circle the largest diameter of the glass (either base, body or rim) fits within, will determine the compartment rack required.

Height
Use the vertical guide to determine the appropriate number of extenders. If the height of the glass is between two extenders, select the higher extender.

BEIGE — 500MM X 500MM

Glass Rack Features

Open Profile
The open tops and sides allow a complete wash from all angles. The design accelerates the drying time making it both practical and hygienic

Stackability
Snap-fit construction shortens assembly time, stacking all racks tightly

Storage & Transport
The secure rack construction and dolly design reduces breakages during washing, transportation and storage

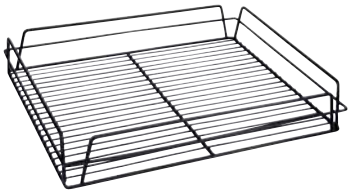

Secure Connection
Snap-fit extenders will not loosen or come apart, ensuring long-term durability and stability

Convenient Handle
The inverted handles on all four sides are designed for easy and safe transportation

Care & Maintenance

Cutlery

Proper care and maintenance of cutlery is essential to maintain its appearance, prevent corrosion, and ensure its longevity. Follow these simple steps to keep your cutlery in premium condition:

1 Handwash

- **Immediate Washing:** Wash cutlery immediately after use with a good quality detergent to prevent food residues from causing stains or corrosion.
- **Do Not Soak:** Avoid leaving cutlery soaking in water as it can cause damage.
- **Avoid Harsh Cleaners:** Do not use harsh washing powders or abrasive cleaning cloths, as they can scratch and damage the surface.
- **Separate Grades:** Do not mix 18/10 grade cutlery with 18/0 grade cutlery when washing, as this can cause discolouration and corrosion.

2 Dishwasher

Proper Loading:

- Load forks and spoons handles down, with tines and bowls up.
- Place knives in a separate basket with blades facing down to prevent scratching and unwanted contact with other alloys.
- Ideal for use with our cutlery / flatware basket codes – 69871 & 69872 on page 922.
- Remove cutlery from the dishwasher immediately at the end of the washing cycle to prevent water spots and streaks.

3 Drying and Storage

- **Dry Thoroughly:** Dry cutlery completely before storing to prevent water stains and rust.
- **Dry Storage:** Store cutlery in dry places to avoid moisture buildup, which can cause corrosion.

4 Stain and Mark Removal

Specialist Cleaners:

- Use a specialist cleaner or stainless steel polish to remove marks from your cutlery. These can be purchased from a chemical supplier. Follow the manufacturer's instructions.
- Do not use silver polish on stainless steel, as it will damage the surface.

5 Understanding Stainless Steel Grades

The quality of cutlery is determined by its stainless steel grade. The higher the nickel content, the better quality the cutlery:

18/10 Stainless Steel:

- Contains 18% Chromium and 10% Nickel.
- High-quality cutlery that is resistant to corrosion and staining.

18/8 Stainless Steel:

- Contains 18% Chromium and 8% Nickel.
- Good quality cutlery with decent resistance to corrosion and staining.

18/0 Stainless Steel:

- Contains 18% Chromium and 0% Nickel.
- More prone to rust spots and corrosion. Lower quality compared to 18/10 and 18/8.

PVD Cutlery

PVD (Physical Vapor Deposition) coloured cutlery requires special care to maintain its vibrant colour and shine. Follow these guidelines to ensure the longevity and appearance of your PVD cutlery:

1 Before First Use

- **Handwash:** Carefully hand wash your cutlery before the first use to remove any residues from manufacturing and packaging.

2 Handwash

- **Preferable Method:** Handwashing is recommended to maintain the shine and colour of your PVD cutlery.
- **Avoid Harsh Cleaners:** Do not use scouring pads, bleach detergents, or products containing sodium.
- **Prompt Rinsing:** Rinse food residue promptly or wash directly after use to avoid damage from salts and food acids.
- **Do Not Soak:** Avoid leaving cutlery soaking in water as it can cause damage.
- **Dry Immediately:** After washing, dry immediately with a soft cloth to prevent water spots and maintain the shine.

3 Dishwasher

- **Gentle Detergents:** Use detergents with a phosphate level below 3% and avoid those containing sodium.
- **Low Temperature:** Use dishwashing programs with a low temperature of 40°C or less to protect the PVD coating.
- **Eco-Friendly Programs:** Check if your dishwasher has an eco-friendly program with a temperature of 40°C or less, which is gentle on PVD cutlery.
- **Rinse Beforehand:** Rinse food residue promptly before placing in the dishwasher to prevent damage.
- **Avoid Contact:** Do not wash PVD cutlery in contact with lower-quality steel cutlery, knives, or utensils to prevent chemical reactions that can mark the steel. Ideal for use with our cutlery / flatware basket codes - 69871 & 69872 on page 922.
- **Remove and Dry:** Remove pieces from the dishwasher when the cycle is finished and towel dry immediately to prevent spotting.
- **Remove Water Spots:** Use a soft cloth to remove any water spots to keep the cutlery's shine.

Crockery

Commercial crockery is designed to withstand heavy use in busy environments such as restaurants, hotels, and catering services. Proper care and maintenance ensure longevity, hygiene, and a professional appearance. Follow these steps to keep your commercial crockery in peak condition:

1 Handwash

- **Pre-Rinse:** Pre-rinse crockery to remove food residues and prevent stains.
- **Use Mild Detergent:** Clean with a mild, non-abrasive dish soap to avoid surface damage.
- **Soft Sponge:** Use a soft sponge or cloth. Avoid abrasive materials such as scourers that can cause scratches.
- **Warm Water:** Wash in warm, not hot, water to prevent thermal shock and potential cracking.

2 Dishwasher

- **Commercial Dishwashers:** Use commercial-grade dishwashers designed for heavy use.
- **Appropriate Detergent:** Use detergents specifically formulated for commercial dishwashers.
- **Avoid Overloading:** Do not overload the dishwasher to ensure proper cleaning and prevent chipping.
- **Regular Maintenance:** Regularly clean and maintain the dishwasher to prevent buildup and ensure efficient operation.

3 Drying

- **Air Dry:** Allow crockery to air dry completely before stacking to prevent moisture buildup and bacterial growth.
- **Avoid Towels:** Avoid towel drying to prevent lint transfer and potential scratching.

4 Storing

- **Proper Stacking:** Stack crockery properly, ensuring items are dry and not stacked too high to prevent stress fractures, chipping and cracking.

5 Usage Tips

- **Avoid Extreme Temperatures:** Do not expose crockery to extreme temperature changes. Avoid placing hot items directly in cold water and vice versa.
- **Proper Handling:** Handle crockery with care. Do not bang or drop items, as this can cause cracks and chips.

6 Stain and Cutlery Mark Removal

- **Baking Soda Paste:** For stains, create a paste of baking soda and water. Gently scrub the stained area with a soft cloth or sponge, then rinse thoroughly.
- **Creme Cleanser or Mild Abrasive Paste Cleaner:** Marks, especially on matte finished crockery is common due to the surface finish. To remove marks and keep your crockery looking fresh, frequent use of a creme cleanser or mild abrasive paste cleaner applied with a soft cloth is recommended.

7 Avoiding Damage

- **Avoid Impact:** Do not drop or knock crockery against hard surfaces.
- **Prevent Thermal Shock:** Avoid rapid temperature changes to prevent cracking.
- **Use Cutlery Carefully:** Avoid using low quality metal cutlery that can scratch and damage the surface.

Edge Chip Warranties

A Five Year Edge Chip Warranty is offered to demonstrate the durability of a product in a busy hospitality environment. We offer this Edge Chip Warranty for the following brands:

- Australian Fine China
- Churchill
- Dudson
- ID Fine
- Luzerne
- Moda Porcelain
- Rak Porcelain / Rak Deco

The Edge Chip Warranty is limited to specified pieces and applies to scale chipping, not V chipping or breakages. Please refer to each individual crockery brand section for individually marked products that the warranty applies to.

❶ Scale Chipping

Characteristics:

- **Description:** Scale chipping involves small, shallow chips that flake off the edges of the crockery. These chips are usually thin and can occur over a larger surface area.
- **Appearance:** These chips often look like fish scales or flakes coming off the edge, creating a rough and uneven edge.
- **Causes:** Frequent contact with hard surfaces, repeated stacking, and minor impacts during handling and washing or potential product fault.

Prevention and Management:

- **Gentle Handling:** Handle crockery carefully to avoid minor impacts.
- **Proper Storage:** Store crockery in a way that minimises movement and contact with hard surfaces, ensuring it is not hot and wet or stacked too high when stored.

❷ V Chipping

Characteristics:

- **Description:** V chipping involves larger, more pronounced chips that create a V-shaped notch or chunk in the edge of the crockery. These chips are deeper and more substantial than scale chipping.
- **Appearance:** These chips form a distinct V shape, often appearing as a significant break in the edge of the crockery.
- **Causes:** Significant impacts, dropping crockery, improper stacking, and exposure to extreme temperature changes.

Prevention and Management:

- **Proper Handling:** Avoid dropping or knocking crockery against hard surfaces. Handle items with care, especially during transport.
- **Stacking:** Stack crockery properly, ensuring that heavier items are at the bottom and lighter items on top.
- **Temperature Control:** Avoid rapid temperature changes. Do not expose crockery to extreme heat or cold.

❸ Addressing Edge Chipping

- **Warranty Claims:** A completed Warranty Claim Form must be submitted for all edge chip claims. Forms can be requested from your distributor.

Glassware

Proper care and maintenance of commercial glassware is crucial to ensure its longevity, clarity, and overall appearance. Follow these steps to keep your glassware in top condition, providing a professional and appealing presentation for your establishment:

1 Washing

Commercial Dishwashers:

- **Dedicated Glassware Racks:** Use racks specifically designed for glassware to prevent movement and collisions.
- **Proper Loading:** Load the dishwasher carefully, ensuring the glasses are secure and do not touch each other.
- **Appropriate Detergent:** Use detergents formulated for commercial dishwashers and glassware.
- **Gentle Cycle:** Select a gentle or glassware-specific cycle to minimise damage from high temperatures and strong water jets.
- **Rinse Aid:** Use a rinse aid to prevent water spots and enhance the shine of the glassware.

2 Drying

- **Air Dry:** The safest method is to allow glassware to air dry. Place items upside down on a clean, lint-free towel or drying rack.
- **Soft Cloth:** If towel drying is necessary, use a soft, lint-free cloth to avoid scratches and lint residue. Microfiber cloths are ideal for this purpose.

3 Polishing

- **Polishing Cloth:** Use a microfibre or lint-free cloth designed for glass polishing.
- **Steam Method:** Steam the glassware over hot water and then polish with a cloth to remove spots and streaks.
- **Avoid Excessive Pressure:** Apply gentle pressure while polishing to prevent breakage.

4 Storing

- **Vertical Storage:** Store glassware upright to avoid putting pressure on the rims, which are the most fragile part.
- **Avoid Stacking:** Do not stack glassware unless it is designed for stacking, as this can cause scratches and increase the risk of breakage.
- **Use Dividers:** Use dividers or separators on shelves to prevent glasses from touching and chipping.

5 Usage Tips

- **Avoid Extreme Temperatures:** Do not expose glassware to sudden temperature changes. Avoid pouring boiling liquids into cold glasses or placing hot glasses in cold water.
- **Handle with Care:** Handle glassware by the base rather than the rim to reduce the risk of breakage and fingerprints.
- **Inspect Regularly:** Check glassware for chips or cracks regularly. Remove damaged pieces from circulation to ensure safety.

6 Preventing Cloudiness

- **Avoid Hard Water:** Use a water softener if your water supply is hard. Hard water can leave mineral deposits that cause cloudiness.
- **Proper Rinsing:** Ensure thorough rinsing to remove all soap residues, which can cause cloudiness.
- **Regular Descaling:** Regularly descale the dishwasher to remove mineral buildup that can affect glass clarity.

Polycarbonate drinkware is a popular choice due to its durability, clarity, and safety compared to glass. To ensure your polycarbonate drinkware stays in optimum condition, follow these steps:

1 Handwash

- **Wash Before Use:** Wash new drinkware before using it for the first time.
- **Use Mild Detergent:** Clean with a mild, non-abrasive cleaner such as Polyclean by Polysafe. Harsh chemicals can damage the surface.
- **Soft Sponge:** Use a soft cloth or sponge. Avoid abrasive scrubbers or scouring pads that can scratch the surface and cause a cloudy appearance. Glass brush cleaners are damaging to polycarbonate surfaces. If using a glass brush cleaner, fold a cleaning cloth over the bristles to create a protective barrier
- **Warm Water:** Wash in warm water. Avoid very hot water and excessive heat, which can warp the drinkware.

2 Dishwasher

- **Avoid High Heat:** Use a gentle or eco-friendly cycle to prevent heat damage. Polycarbonate can warp or crack under high temperatures.

3 Drying

- **Air Dry:** Air drying is the safest option. Place drinkware upside down on a clean towel or drying rack.
- **Soft Cloth:** If towel drying is necessary, use a soft, lint-free cloth to avoid scratching.

4 Storing

- **Stacking:** If stacking, ensure drinkware is completely dry to prevent moisture buildup and possible bacterial growth. Place a soft cloth or paper towel between stacked items to avoid scratching.
- **Avoid Overcrowding:** Store in a spacious area to prevent damage from overcrowding or heavy items pressing against the drinkware.

5 Usage Tips

- **Avoid Microwave:** Do not use polycarbonate drinkware in the microwave, as it can cause warping.
- **Avoid Boiling Liquids:** Do not pour boiling liquids directly into polycarbonate drinkware to prevent warping or cracking.
- **Prevent Staining:** Avoid leaving strong-coloured beverages (e.g., coffee, red wine) in the drinkware for extended periods to prevent staining.
- **Limit Alcohol Use:** Polycarbonate can react with high-proof alcohols. Limit prolonged exposure to strong undiluted spirits.

6 Stain Removal

- **Soaking:** For heavily soiled glasses, use Revive polycarbonate soaker by Polysafe.

7 Avoiding Damage

- **Avoid Impact:** Polycarbonate is durable but not indestructible. Avoid dropping or knocking the drinkware against hard surfaces.

Wooden Boards

Proper care and maintenance of wooden boards are essential to ensure longevity, hygiene, and appearance. Follow these simple steps to keep your wooden boards in excellent condition:

1 Washing and Cleaning

Avoid Dishwashers and Extreme Conditions:

- Not suitable for dishwashers, ovens, freezers, or microwaves.
- Do not soak in water or wash with harsh detergents.

Regular Cleaning:

- Wash with hot soapy water after each use.
- Dry immediately with a clean paper towel or air dry.

2 Food Contact and Sanitisation

Direct Contact:

- Suitable for direct contact with food.
- Ensure appropriate cleaning and after-care after each use.

Thorough Sanitisation:

- For more thorough sanitisation, use a diluted mixture:
  - — One teaspoon of chlorine bleach to one litre of water, or
  - — Five teaspoons of vinegar to one litre of water.

3 Storage

Optimal Storage Conditions:

- Store in a dry location at room temperature.
- Avoid storing near heat sources or humid areas.
- Do not leave in direct sunlight for long periods of time.

4 Maintenance

Regular Oiling:

- Give your boards a good oiling on all surfaces every 3–4 weeks.
- Use food-grade mineral oil or a specialised cutting board oil.
- Apply the oil evenly with a clean cloth, let it soak in, and wipe off any excess.

Melamine

Melamine tableware is durable, lightweight, and resistant to shattering, making it a popular choice for commercial use. Proper care will help maintain its appearance and longevity. Follow these simple steps to ensure your melamine stays in good condition:

1 Washing and Cleaning

Handwash:

- **Use Mild Detergent:** Clean with a mild, non-abrasive dish soap to avoid damaging the surface.
- **Soft Sponge:** Use a soft cloth or sponge. Avoid using abrasive scrubbers or steel wool, which can scratch the melamine.
- **Warm Water:** Wash in warm water. Avoid very hot water, which can weaken the material over time.
- **Rinse Thoroughly:** Rinse thoroughly to remove all soap residues, which can dull the finish.

Dishwasher:

- **Avoid High Heat:** Use a gentle or eco-friendly cycle. High temperatures can cause warping or discolouration.

2 Drying

- **Air Dry:** Allow melamine items to air dry to avoid potential damage from high heat or abrasive drying cloths.
- **Soft Cloth:** If towel drying is necessary, use a soft, lint-free cloth to prevent scratching.

3 Usage Tips

- **Avoid Microwaves and Ovens:** Melamine is not suitable for use in microwaves or ovens, as it can melt or warp under high temperatures.
- **Avoid Boiling Liquids:** Do not pour boiling liquids directly into melamine containers, as this can cause warping or cracking.
- **Prevent Staining:** Avoid leaving highly acidic or strong-coloured foods (e.g., tomato sauce, coffee) on melamine surfaces for extended periods to prevent staining.

4 Stain and Odour Removal

- **Baking Soda Paste:** For stubborn stains, create a paste of baking soda and water. Gently scrub the stained area with a soft cloth or sponge, then rinse thoroughly.
- **Vinegar Solution:** For odours, soak the melamine in a solution of equal parts white vinegar and water for a few hours, then wash as usual.

5 Storing

- **Avoid Stacking Too High:** Do not stack melamine items too high, as the weight can cause warping or damage over time.
- **Store in a Cool, Dry Place:** Store melamine in a cool, dry place away from direct sunlight and heat sources, which can cause discolouration or warping.

Cast Iron Cookware

Proper care and maintenance of cast iron cookware are essential to ensure longevity, performance, and appearance. Follow these guidelines to keep your cast iron cookware in excellent condition:

1 Cooking and Usage

- **Align with Cooktop Heat Zone:** Always align the casserole base with the cooktop heat zone for even heating.
- **Prevent Overheating:** Ensure gas flames are confined to the base area of the casserole to prevent overheating and damage to handles.
- **Use Medium to Low Heat:** For best cooking results and to preserve the cookware, use medium to low heat.
- **Avoid Metal Utensils:** Do not use stainless steel spoons, whisks, or any utensils with sharp or hard edges to avoid damaging the cooking surface.

2 Cleaning and Maintenance

- **Avoid Thermal Shock:** Thermal shock may result in cracking or loss of enamel coating. Always let the heated dish cool before washing.
- **Gentle Cleaning:** Do not use scourers or abrasive cleaners on the cooking surface. Use nylon or soft abrasive pads or brushes to remove stubborn residues.
- **Washing:** Wash with warm, soapy water. Avoid soaking the cookware to prevent rust.
- **Dry Thoroughly:** Before storing, ensure the casserole is completely dry. Store in a dry or open-air space to prevent moisture buildup.

3 Storage

- **Proper Drying:** Make sure the cookware is completely dry before storing to prevent rust.
- **Avoid Moisture:** Store in a dry place, away from moisture, to maintain the integrity of the enamel coating and prevent rust.

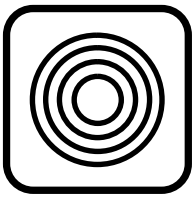

4 Handling and Safety

- **Prevent Damage:** Avoid repeated knocks to the cooktop or other hard surfaces, especially on the edges of the pot, as this may crack or chip the enamel finish.

Greaseproof Paper & Crockery

GREASEPROOF PAPER

Take your branding to the next level with custom greaseproof paper.

Our biodegradable and non leaching paper can be tailored to uniquely reflect your brand.

Features include:

- Australian made
- Sustainable
- Quick turnaround on both original order and re-orders
- Customisable sizes
- Multiple colour options
- Multiple colours in one design available
- Print on kraft or white paper
- Rolling print or cut to print available

Note: Minimum order quantities apply.

CROCKERY

Enhance branding at your venue with custom crockery decorations.

Our kiln fired, on-glaze printing is manufactured with the latest ceramic technology for a durable, long-lasting impression.

Features include:

- Decorated within Australia
- Long lasting print (kiln fired)
- Multi-coloured logos available
- Decals and Hand-painted technique
- No design or logo size restrictions
- Fast lead time
- Minimum order quantity: 144 pieces

*** Decoration also available ex-Factory for bulk order quantities.**

GLASSWARE

Order your glassware with the convenience of in-house printing/nucleation.

Branded glassware (including pour guides onto glasses) can be arranged with single colour pad printing or even sand-blast nucleation added to your beer glasses to improve the performance and presentation of your beer service.

Features include:

- Decorated within Australia
- Single colour pad printed logos / pour lines (max logo size 35mm)
- Sand-blast Nucleation for improved draught beer performance
- W&M Certification
- Fast lead time
- Minimum order quantity: 240 pieces

*** Decoration also available ex-Factory for bulk order quantities.**

Custom printing enables you to design greaseproof paper, crockery, and glassware with your unique branding, enhancing the dining experience with an added touch of sophistication and personalisation.

With a commitment of minimising our global carbon footprint, **Trenton International** has contributed to the **10 Thousand Trees** initiative to make paper a sustainable resource. In doing so, **10 Thousand Trees** will plant trees this year on our behalf, manage them to maturity, harvest them to be used as environmentally friendly paper, and then reinvest the profits from that sale back into more trees. By increasing the supply of Australian trees we are contributing to a program that ensures the safety of old growth forests and contributes to a sustainable environment.
