trenton™
INTERNATIONAL

Welcome to the latest catalogue from Trenton International Hotel and Restaurant Supplies. We are excited to present our most comprehensive range ever!

Trenton remains an Australian, family owned and operated business, working to meet the needs of our customers. To service the demands of the dynamic hospitality industry, we are committed to bringing you the best in glassware, crockery, cutlery, kitchenware, buffet, bar, counter and related table service items.

We continue to offer exclusive world brands, including Churchill, Luigi Bormioli, Luzerne and Pasabahce.

Since our last catalogue, we have acquired several businesses; Crown Commercial, Polysafe and our latest, Australian Fine China.

We truly value our customers and thank you for supporting Trenton. We look forward to working with you in the years ahead.

Enjoy!

Yours sincerely,

Thomas Reiner

Brands

Trenton International delivers superior quality cutlery without compromise. Offering high grade stainless steel in mirror polished and satin finishes, our cutlery offering exhibits a focus on designs that embrace both traditional and contemporary styles. Our European influenced designs deliver a sleek and elegant presence to any hospitality venue.

Amefa is a strong cutlery brand with an international presence, sold in more than 30 countries. Amefa has an extensive manufacturing processes for stainless steel products. This is applied to produce a high quality standard across their range.

Exquisite care and attention to detail goes into each product manufactured by Athena to create commercial quality cutlery for every use.

Established in 1990, Sant' Andrea is a European brand with a prestigious heritage. Offering modern themes with timeless classic design, Sant' Andrea can be found within many celebrated five star establishments all over the world.

With a heritage of over 80 years, their superb craftsmanship and expertise expressed in Stanley Rogers cutlery have made it an iconic Australian brand. Stanley Rogers brings understated style to your dining table through its selection of best-selling cutlery designs.

For 22 years Trenton's quality products and comprehensive ranges of cutlery and serving pieces have stood the test of time at all levels of the foodservice industry.

Grades

We have included a coding system at the top of each page, to assist you in selecting the perfect range for your venue.

Boutique
Contemporary designs with a point of difference. These premier cutlery ranges are new to the Australian hospitality industry.

Deluxe
This is our highest grade of cutlery composed of an 18/10 combination of nickel and chromium. These high end ranges are perfect for five star restaurants and exclusive hotels.

Premium
These ranges of cutlery maintain a superior polish whilst also offering un-matched durability.

Commercial
A range of cutlery perfect for high volume environments at an affordable price point. Quality that will stand up within the busiest of venues.

CROCKERY

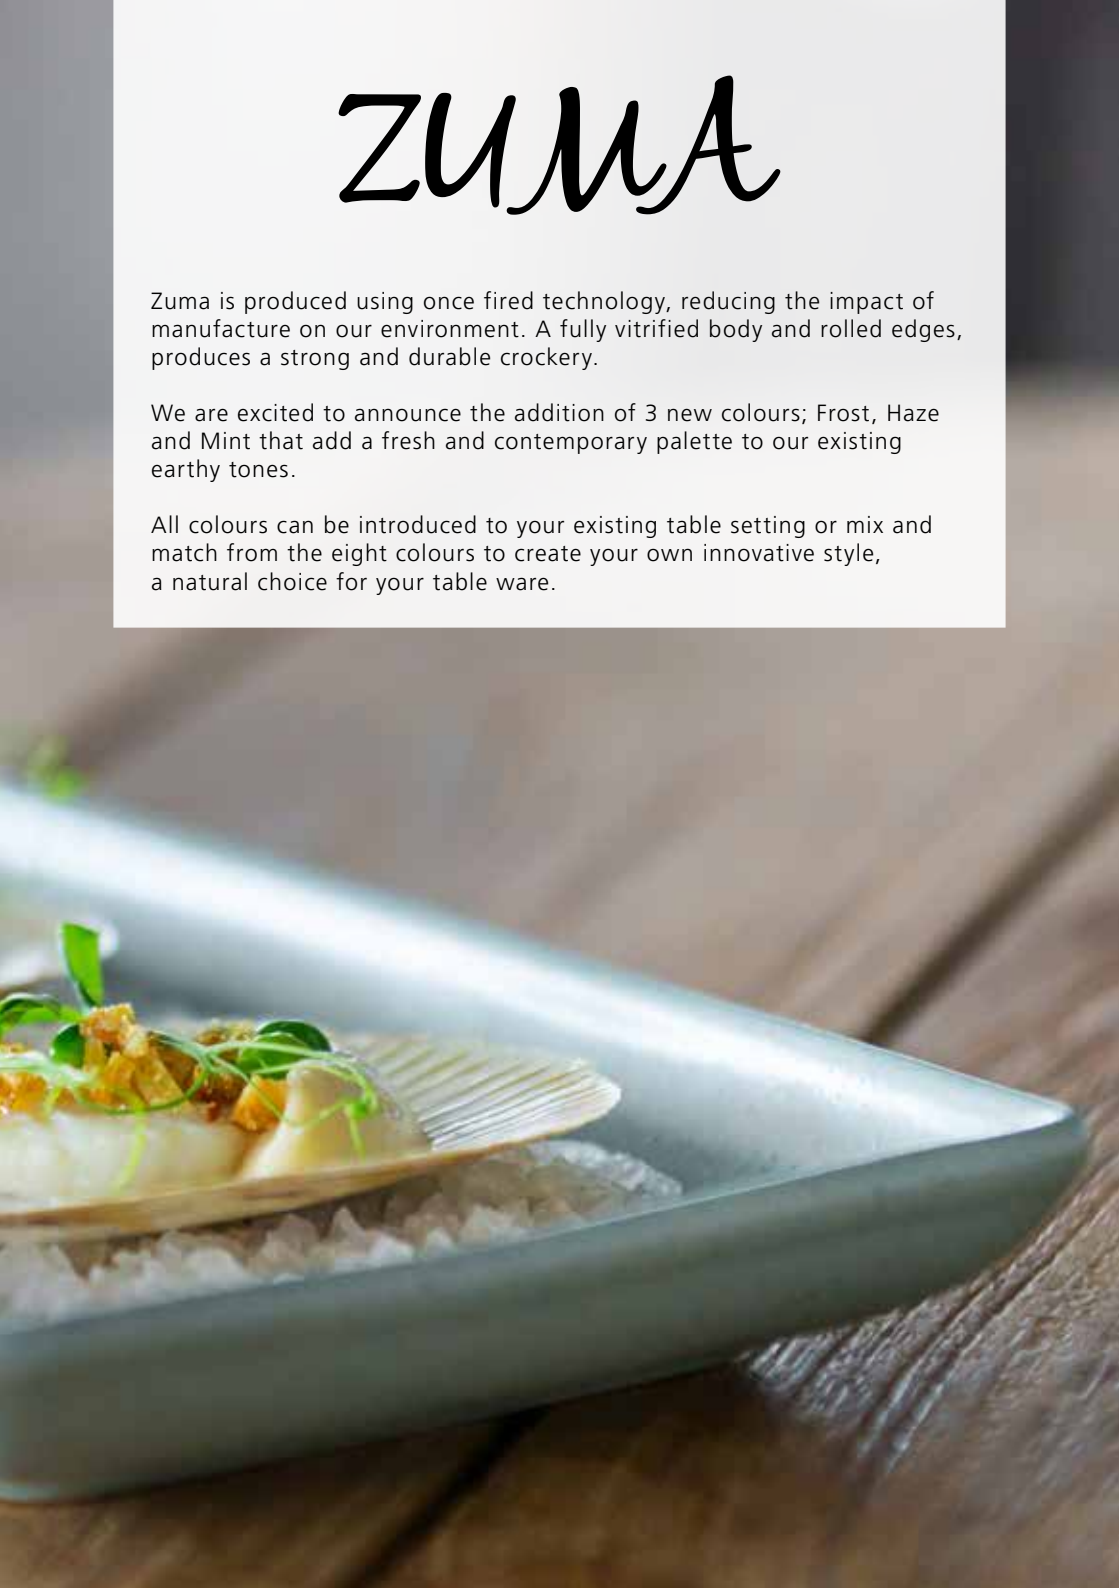

ZUMA

Zuma is produced using once fired technology, reducing the impact of manufacture on our environment. A fully vitrified body and rolled edges, produces a strong and durable crockery.

We are excited to announce the addition of 3 new colours; Frost, Haze and Mint that add a fresh and contemporary palette to our existing earthy tones.

All colours can be introduced to your existing table setting or mix and match from the eight colours to create your own innovative style, a natural choice for your table ware.

ZUMA

Stonecast®

by

CHURCHILL®

super vitrified

Introducing 'Stonecast' an exciting new collection of rustic and hand decorated products from Churchill. Reviving classic designs from the Churchill archives, each pin fired piece is hand painted then finished with a fine speckle & rustic edge in golden brown. The nature of the process means that every piece will be slightly different, adding to the overall charm of the product.

Stonecast complements all types of foods and adds value and authenticity to the overall presentation. The range is suitable for a broad range of cuisines and settings, from cafes and pubs through to premium restaurants looking for an eye catching product to truly showcase their dishes. Whatever your venue or style of food, Stonecast offers the perfect choice.

MADE IN ENGLAND

Churchill has a long history of bringing the highest quality products to the hospitality industry. Based in the heart of the Potteries in Stroke-on Trent England since 1795, Churchill has progressively developed, but continues to manufacture many of its lines in the United Kingdom.

5 YEAR EDGE CHIP WARRANTY

All items marked with a star throughout the Churchill pages are covered by a 5 year edge chip warranty. Items will be replaced for a period of 5 years from the original date of purchase for any edge chips that occur during "normal" food service use, this warranty covers chipping only, not breakages.

CHURCHiLL®

super vitrified

Churchill prides itself on delivering innovative, high performance, pin fired products to an ever changing, global market place. With over 200 years of innovation, passion and expertise makes Churchill the natural partner for providing tabletop solutions. Within the hospitality sector, the choice of tableware must meet the highest standards for presentation, practicality and performance.

MADE IN ENGLAND

Churchill has a long history of bringing the highest quality products to the hospitality industry. Based in the heart of the Potteries in Stroke-on Trent England since 1795, Churchill has progressively developed and continues to manufacture many of its lines in the United Kingdom.

5 YEAR EDGE CHIP WARRANTY

All items marked with a star throughout the Churchill pages are covered by a 5 year edge chip warranty. Items will be replaced for a period of 5 years from the original date of purchase for any edge chips that occur during “normal” food service use, this warranty covers chipping only, not breakages.

ECO GLAZE

Eco glaze offers a superior glaze finish that enhances product performance by reinforcing product stability and durability. Characteristics include reduced stain and metal marking resistance, which prolongs the life of the product. Eco Glaze is fully recyclable, meaning it has less impact on the environment.

Luzerne

When selecting Luzerne New Bone, you can be sure you're getting a product that has been made with quality materials. Our commitment to long lasting quality and reliability ensures that our range is produced to the highest standards, able to withstand daily heavy usage, typical to busy hotels, restaurants and cafes.

The journey to create the finest product begins with the right mix of raw materials; ground, sieved, demagnetized and filtered to our precise standards before they are transformed into works of art. This refined clay base is then shaped in 3D plaster moulds that are painstakingly hand crafted by our craftsmen, before going into an automated kiln for the initial firing process at a temperature of 800°C. Next the pieces are painted by hand to our custom designs and glazed to achieve a variety of aesthetic effects, be it transparent, opaque or semi-matte. The glazed wares are then fired for a second time in the kiln at a temperature of 1280°C for 15 to 30 hours to produce that perfectly finished product that the market has fallen in love with.

5 YEAR LIMITED EDGE CHIP WARRANTY

All Luzerne New Bone items are covered by a 5 year edge chip warranty. Items can be replaced for a period of 5 years from the original date of purchase for any edge chips that occur during "normal" food service use, this warranty covers chipping only, not breakages. For more information on how to prevent damage, please refer to our Care & Maintenance section.

BAUSCHER
GERMANY

The search for something new and better is the hallmark of the Bauscher brand.

When they established their business back in 1881, brothers August and Conrad Bauscher were focusing on something absolutely unprecedented: professional tableware. They wanted the products they made to be robust, functional, durable – and beautiful. It is these qualities that have made the Bauscher brand one of the world's most popular ranges of professional tableware, produced in one of the most modern production facilities in Europe. Our ISO 14001-certified environmental management system shows our commitment to sustainability. We are also the first porcelain company in the world with an energy management system certified to ISO 50001.

As a visionary in this field, Bauscher is leaving an impressive mark on the global hotel and restaurant sector, in hospitals, aged care homes, and the professional catering world.

Thinking in terms of systems and processes, and combining functional solutions with an attractive look, are the goals of every development process. Again and again, the Bauscher brand showcases its expertise in aesthetic yet functional design, for example the award-winning Enjoy collection.

On the banks of the Magdalena River in central Colombia, villagers from La Chamba continue an artisanal tradition that spans over 700 years.

Using the local mineral-rich clay, artisans produce 'La Tapa' cookware. Every piece of cookware is burnished by hand then fired on site.

Free of toxins, chemical glazes and lead clay, 'La Tapa' offers a comprehensive, fashionable, eco-friendly range of cookware. These artisanal pieces can be used (after curing, see care instructions) on gas stove top, in the oven and microwave. If using 'La Tapa' on an electric stove top a heat diffuser is required.

Items within this range include griddle pans, roasters and baking dishes, fully complemented with a range of unique tapas dishes.

TAPAS

La Tapa is Colombia's gift to the hospitality industry. It's versatility enables use from oven and stove top cooking to serving pieces. These handcrafted vessels will add a unique piece of 'art' to your table.

ROCKINGHAM · By Andrew Hawley ·

Rockingham's sleek designs are a staple for many cafes and baristas. The traditional Italian coffee cup shapes will suit all beverage needs.

Each piece is fully vitrified, making this durable range of cups and saucers suitable for all commercial applications.

Available in Black, Brown, Mint Green, Orange, Red, Sky Blue, White and Yellow. We also now offer this popular range in 2 vibrant new colours; Grey and Pink, all with a high gloss finish and white interior.

ROCKINGHAM · By Andrew Hawley ·

NEW

BLACK & BROWN

The powerful colour of pitch Black will add a sultry mood to your establishment. Emphasize the richness and depth of your coffee with our contemporary Brown cups and saucer. All cups and saucer are fully vitrified ensuring Rockingham is suitable for all commercial applications.

GLASSWARE

Luigi Bormioli
ITALY

Founded in 1946, Luigi Bormioli is committed to its founding principles of great design, Italian craftsmanship and cutting edge technology to create premium glassware of the highest quality. Luigi Bormioli offer a comprehensive range of styles from classic to contemporary, with a glass for all occasions.

Produced with pulled stem technology, and featuring titanium reinforced stems for added strength and flexibility each glass is finished with a reinforced fine, laser cut rim for optimum drinking pleasure.

SON.HYX
SON.hyx is a patented formula that presents outstanding chemical, optical and mechanical properties. SON.hyx glasses can withstand 4,000 industrial dishwasher cycles with no alteration in transparency. These glasses are totally transparent according to ISO/PAS IWA 8:2009.

SPARKX
Sparkx is a new material with an extremely low iron content, providing premium transparency of the glass. These glasses are measured to withstand 2,000 industrial dishwasher cycles with no alteration in transparency. Sparkx is lead and other heavy metal free.

Luigi Bormioli ITALY

ATELIER ORIGINAL

A comprehensive collection with a contemporary design conceived for specific wines. The curving point of the bowl gives high resistance to shocks and also indicates the pouring level.

RG
RYNER
GLASS

A GLASS THAT ALLOWS THE 'WINE TO STAR'

In our quest to develop high performance glassware we drew inspiration from our partnership with wine artisans. "RG" Ryner Glass technology ensures brilliance and commitment to quality.

This attention to detail is reflective in the see-smell-taste experience. Our range offers the ability to capture the wine's aromas during their development in the bowl.

All our glasses are produced to a high standard of a quality, design, durability and are dishwasher safe.

In addition to wide variety of suites our glasses are sturdy, yet fine, offering a glass for every taste and occasion.

CARNIVALE

A Concise range combining versatility and durability that is made from European non-lead crystal that ensures optimum clarity and strength.

Crown Glassware was the first company in Australia to develop glassware for the hospitality industry. During this time, Crown Glassware has built a long history and established a strong reputation for supplying quality glassware at competitive prices.

Our quality and value for money ranges are well known within the Australian capacity beer, stemware and tumbler segments. Our glassware ranges come in a number of compositions from toughened glassware right through to polycarbonate drinkware.

ATLAS

Made with fully toughened composition this stemware is up to 6 times stronger than other standard stemware. The Atlas range will reduce your replacements costs and add safety to your venue.

CATEGORISED COLLECTIONS

We offer a diverse range of glasses with pour lines printed at the 150ml marking. This will greatly improve portion control within venues for 'wine by the glass' transactions as well as ensuring 5 equal serves per a 750ml wine bottle. There is a stemware shape with pour line applied for all segments of the market from entry level through to fine dining.

Our diverse range of champagne flutes will ensure all sparkling wines can be paired to the correct flute shape. We offer long, skinny bowl and thin stem options which will give bubbles plenty of room to fizz and tend to keep liquids colder for longer; through to wide bowl options that narrow at the top allowing bubbles to rise, with better aeration.

WINE TASTERS

These wine tasters have been specifically developed with rounded bowls and narrow sides to allow the wine to be swirled easily without any spillage. The rim helps contain all the delightful aromas and enhances the appreciation. These glasses are scientifically designed to be used across a broad range of wine styles.

TEMPERED GLASSWARE

Tempered glassware will break under strong shock, but it will resist breaking into large pieces that could cause severe injury.

Legislative requirements now force particular venues to use tempered glass where glassing incidents have occurred. Trenton's tempered range assists you being able to service these venues effectively.

Features & benefits

- 4-6 times stronger than annealed (standard) glassware.
- Reduces costs due to less breakages.
- Weights and Measures capacities available.
- Constant Trade Magazine advertising and editorial exposure.
- Crowntuff is available in beer glasses, tumblers & stemware.

CASABLANCA

A fully tempered glassware range with increased strength and durability. The glasses can withstand a sudden temperature change, making them suitable for high volume venues.

SPECIALTY BEER

Due to the increase of beer varietals in recent years, there has emerged the need for speciality glassware for particular styles of beer. The shape of a beer glass affects the formation and retention of head, which in turn affects the aroma of the beer. Shapes with curves and chimney openings will provide for a bigger foamy head, making the aromas much brighter.

Whilst tall options with wide openings are designed for head and volume. A tall option will shows off the colour, whilst trapping any sediment often found in them at the narrow bottom of the glass.

Luigi Bormioli ITALY

BIRRATEQUE

Each beer style has its own unique characteristics and bitterness levels. To emphasise the aromas and flavours experienced, each glass has been scientifically designed specifically for craft beer service.

SPECIALITY BEER

Due to the increase of beer varietals to the market, there has emerged the need for speciality glassware for particular styles of beer. The shape and style of the glass influences the delivery of the beer to the palette as well as the development of the aromas and flavours that each style of beer contains.

SPECIALTY & COCKTAIL

Choosing the right glass is not only about the overall presentation, but also affects the taste.

Our diverse range of cocktail and martini glasses, brandy, cognac, shot glasses and polycarbonate drinkware are designed to enhance flavours yet are built with functionality top of mind.

Along with the growing trend of presenting food and beverage in new and exciting ways, we offer a wide range of presentation pieces from single serve gourmet glasses, mini glass bottles, soda and coffee glasses through to multi-purpose storage solutions.

Our Double Walled glasses are statement pieces for use with tea and coffee through to stunning visual impact when used for food service.

The wide selection of bottles, carafes and decanters allows for an articulate choice when selecting the perfect option for aerating any aged wine or serving at the table.

POLYSAFE

PREMIUM UNBREAKABLE DRINKWARE

The Polysafe range is virtually unbreakable, durable and reliable. Made from the highest quality food grade polycarbonate, our drinkware looks and feels like the real glass equivalent.

Our diverse range of polycarbonate drinkware is designed to suit all applications and environments with its glasslike characteristics. With sound knowledge and advanced production techniques, our factory technicians have developed a unique method to strengthen the internal structure of each piece that guarantees no cracking or injection bubbles. Polysafe is one of the only companies in the world to do this.

POLYSAFE
PREMIUM UNBREAKABLE DRINKWARE

NEW
PURE

Polysafe "Pure" is four exciting shapes in a solid white colour. The colour is added prior to the injection moulding process so it will never chip or fade.

BUFFETWARE

ATHENA®

REGAL DELUXE INDUCTION CHAFING DISH

Regal is the newest additional to Athena's chafing dish range. With a similar design to Prince, Regal features a large tempered glass lid that provides a panoramic view of the food aiming to raise the customer's appetite.

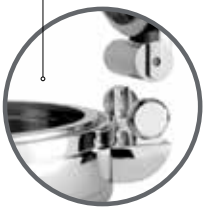

It's clean and compact silhouette adds to the quality design that included Athena's patented hydraulic hinge and heavy gauge 18/10 stainless steel body. Suitable for use on induction or electric cooktops, as well as with chafing dish fuel.

LID POSITION
- opens up to maximum 90°
- stays open at approx. 75°
- initiate to close by pressing down gently & closes automatically & silently

EU1935/2004 FOOD SAFE STANDARD CONFORMED

DETACHABLE LID
- for quick & easy cleaning

NOISE STOPPER
- reduces noise when closing lid

WATER RETURN SYSTEM
- condensation flows back to water pan instead of food

CONVENIENT NOTCH
- changing food pan easily

HYDRAULIC HINGE
- for smooth opening & closing of lid

ADJUSTABLE LEVEL SUPPORT
- for a perfectly level placement when required

CAPSULED BOTTOM
- multi layer bottom for fast & even heating
- compatible for induction, chafer fuel and electric heater

Arcos is a leading Spanish knife manufacturer and one of the oldest knife and cutlery manufacturers in the world. Possibly one of the best kept secrets in the European knife industry.

Our Arcos range of kitchen knives are designed and built for professionals, but these knives are also ideal for home chefs who crave a tough, dependable cutting tool with years of durability. Featuring an exclusive Arcos stainless steel formula called Nitrum, this blade is made from martensitic stainless steel with added molybdenum and vanadium for strengthening.

Select from a wide range of high quality professional knives including chef, paring, boning, filleting, bread and other knives such as tomato and santoku knives.

WASHWARE & TROLLEYS

Flap-Racks® by pujadas

The patented system allows the walls on both bases and extenders to be open or closed easily. Personalise and identify them according to your needs.

A Openings for maximum cleaning

B Ideal for transporting and storing

GET THE BEST OF BOTH WORLDS: OPENDED OR CLOSE

- Easy to assemble and disassemble
- Stackable with other market baskets
- Reinforced double-wall (anti-shock)
- Easy customization

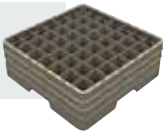

WASHING
Improved cleaning

TRANSPORT
Improved security

STORING
Improved hygiene

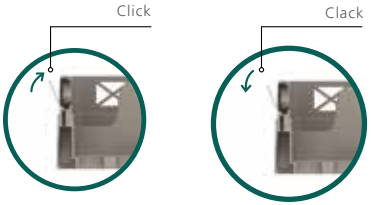

Easy to assemble and disassemble extenders

INFO Highly resistant to chemicals and temperatures up to 95º C.

FLAP RACK SIZE GUIDE

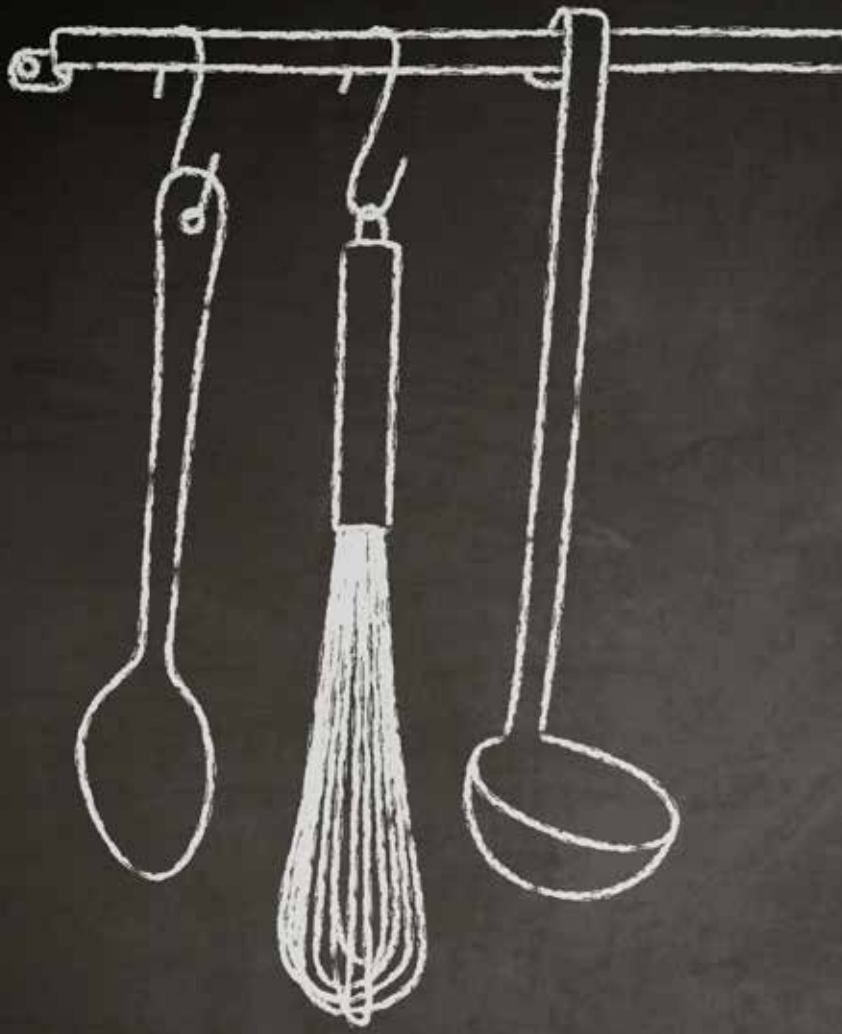

Diameter
Place glass upside down over the circular chart. Whichever circle the largest diameter of the glass (either base, body or rim) fits within, will determine the compartment rack required.

Height
Use the vertical guide to determine the appropriate number of extenders.
If the height of the glass is between two extenders, select the higher extender.

CARE, MAINTENANCE & INDEX

To ensure long life and to retain the lustre of your cutlery, the following procedures are recommended:

- Wash immediately after use with a good quality detergent.
- Do not use harsh washing powders or abrasive cleaning cloths.
- Do not mix 18/10 grade cutlery with 18/0 when washing as this can cause discolouration and corrosion.
- If using a dishwasher, always remember to load forks and spoons handles down, tines and bowls up.
- Place knives in a separate basket with blades facing down to prevent scratching and unwanted contact with other alloys.
- Remove cutlery from dishwasher immediately at the end of the washing cycle.
- Store cutlery in dry places and dry completely before storing to prevent water stains.
- To remove marks from your cutlery, it is recommended that a cleaner or polish for stainless steel is used. These can be purchased from your chemical supplier. Follow the manufacture's instructions. Do not use silver polish on stainless steel as it will damage the surface.

There are various grades of stainless steel used in the manufacture of cutlery.
The higher the nickel content the better quality the cutlery will be:

18/10 - 18% Chromium / 10% Nickel
18/8 - 18% Chromium / 8% Nickel
18/0 - 18% Chromium / 0% Nickel content thus this grade is more prone to rust spots

PVD (Physical Vapour Deposition) Cutlery

PVD is a vaporization coating technique (layer by layer). The coating is applied using vacuum deposition, which means that articles with hollow cavities can not be coated (e.g. hollow-handled knives). The various colours are the result of different chemical compounds in the coating.
PVD is dishwasher safe.

What are PVD coatings used for:

- Improved hardness and use-resistance
- Reduced friction
- Improved oxidation resistance
- Was originally developed for the jewellery industry

To Prevent Breakage and Chipping, Avoid:

- Improper loading in dish racks.
- Piling heavy items on lighter items.
- Stacking dinnerware too high.
- Nesting cups.
- Lack of protective matting on floor of dishwashing area.
- High water pressure in dishwashing machine.
- No rubber guards on disposal unit or dishwashing machine.
- Hand-washing operation.

To Prevent Scratches and Metal Marking, Avoid:

- Stacking hot, wet dinnerware.
- Not regularly cleaning stainless steel benches.
- Overworking dinnerware.

To Prevent Unnecessary Damage or Loss when Stacking:

- Consider the size and type of your storage space.
- Never stack items that were not designed for stacking.

- To avoid breakage during the wash cycle, place glasses so that they don't touch each other.
- Always put the glasses in the upper compartment of the dishwasher.
- Stemmed glasses shouldn't be placed in the corners in order to let the washing liquid reach all items.
- To keep the shininess of your glasses respect the washing programs, the amount of detergents, the temperature and check the mildness of the water. Rather choose a short and low temperature program.
- Always use a non abrasive cleaner.
- Keep the dishwasher's filter, helix and pipes clean.
- Always wash new glasses before use.
- Rinse glass as soon as possible after use.
- Use a towel to dry your glasses but do not use any softener or strengthener to wash your towels.
- Let the glasses cool down before polishing them and use a cotton glass polishing towel.
- Glasses, in particular wine glasses, should be placed foot down otherwise they could take some smells and so alter wine aroma.
- When using ice to make a drink, always use an ice scoop, never scoop the ice with a glass.
- Never stack non-stackable glasses.
- Avoid handling glasses in clusters.
- Avoid twisting the base and the bowl in opposite directions whilst drying.

- Hand wash and machine wash using Polyclean by Polysafe.
- For heavy soiled glasses, use Revive, the polycarbonate soaker exclusive for Polysafe products.
- When hand washing, only use a soft sponge and avoid repetitive movements like twisting whilst cleaning.
- Avoid scourers and abrasive cleaning clothes at all costs. These will make the polycarbonate glasses appear scratched and cloudy.
- Glass brush cleaners are also damaging to polycarbonate surfaces. It is recommended that folding a cleaning cloth over the bristles will create a protective barrier.

- Not suitable for dishwashers or use in ovens, freezers or microwaves.
- Do not soak in water or wash with harsh detergents, simply wash with hot soapy water after each use and dry with clean paper towel or let it air dry.
- Suitable for direct contact with food, however ensure appropriate cleaning and aftercare.
- If you wish to sanitize the boards more thoroughly, a diluted mixture of 1 teaspoon of chlorine bleach to 1 litre of water or 5 teaspoons vinegar to 1 litre of water.
- Store boards in a dry location at room temperature.
- Do not store near heat sources or humid areas.
- Do not leave in direct sunlight for long periods of time.
- It is extremely important to give your boards a good oiling on all surfaces every 3-4 weeks.

- Do not heat food on this product.
- Dishwasher safe.
- Not suitable for use in microwaves or ovens.
- Avoid scouring with abrasive cleaning products.
- Avoid using sharp knives which will scratch the surface.

- Always pair the casserole base with the cooktop heat zone. Ensure the gas flame in confined to the base area of the casserole.
- To prevent overheating and damage to handles, ensure the gas flames are confined to the base area of the casserole.
- For best cooking results we recommend medium to low heat is used.
- To ensure longevity of the cooking surface, stainless steel spoons, whisks or any utensils with sharp or hard edges should not come in contact with the casserole surface.
- Thermal shock may result in cracking or loss of enamel coating. To prevent this, always cool heated dish prior to washing.
- Do not use scourers or abrasive cleaners on the cooking surface. Nylon or soft abrasive pads or brushes can be used to remove stubborn residues.
- Before storing in a dry or open air space, ensure the casserole is completely dry.
- Avoid repeated knocks to the cooktop or other hard surfaces, especially on the edges of the pot, as this may crack or chip of the enamel finish.

With a commitment of minimising our global carbon footprint, **Trenton International** has contributed to the **10 Thousand Trees** initiative to make paper a sustainable resource. In doing so, **10 Thousand Trees** will plant trees this year on our behalf, manage them to maturity, harvest them to be used as environmentally friendly paper, and then reinvest the profits from that sale back into more trees. By increasing the supply of Australian trees we are contributing to a program that ensures the safety of old growth forests and contributes to a sustainable environment.

Catalogue Disclaimer:

Every attempt has been made to ensure the accuracy of the product descriptions in this catalogue at the time of printing. Illustrations in this catalogue are guidelines only. Manufacturing changes may result in product variations. All dimensions are nominal and may vary due to a change in source or manufacturing. Any item in this catalogue may be discontinued without notice.
