

ONIS

NEW BRAND. SAME GLASS.

ONIS is the new brand of two European glassmakers, who brought authenticity and uniqueness to glassmaking.

Continuing to design outspoken glassware with a statement to bars, hotels and restaurants, inspiring professionals to add value to drink creations. All details count when creating that ultimate drinking experience, where the glass is the finishing touch.

ONIS always has the right glassware. From durable pieces that are practical to use and meet the highest professional standards to iconic classics stylishly fitting all venues, resulting in the perfect serve.

NEW ERA and TARQ ranges offer stackable tumblers featuring Onis' Xtratuff treatment which refers a super strengthening thermal after-process which is performed to the upper third of the glass, which increases its resistance to thermal and mechanical shock.

A close-up photograph of a hand with extensive black ink tattoos on the fingers and palm, squeezing a slice of orange. The juice is being squeezed over a glass of beer. The glass is a heavy, textured tumbler with a yellow beer base, a thick white head of foam, and a red liquid layer on top. The background is dark and out of focus, showing green foliage.
