c o u

We are excited to announce that Trenton International has acquired COU COU Melamine.

Already a trusted name within the hospitality market, COU COU is now backed by Trenton's unmatched industry expertise, innovation, and service. Customers can expect the same COU COU quality they know and love, now supported by one of Australia's leading hospitality suppliers.

COU COU Melamine specialises in the design and manufacture of robust foodservice melamine that combines modern and traditional aesthetics for the perfect mix of fine art and practicality.

Renowned for durability and design, COU COU offers ranges made to suit modern service needs. Each piece is carefully crafted from 100% high-grade melamine, with BPA-free certification and natural dyes for a safe, sustainable finish. Setting the standard for hospitality melamine products, COU COU is commercial dishwasher safe and made to last a lifetime.

Safety

- Excellent resistance to grease, acid, alkali and various solvents.
- Non-releasable formaldehyde or other harmful substances.
- Odourless.
- BPA free.

Practical in Use

- Durable and resistant to damage.
- Excellent temperature tolerance.
- Low thermal conductivity.
- Child friendly.

Made for Service

- Lightweight.
- Low in density.
- Smooth surface.
- Dishwasher safe.

Melamine tableware is durable, lightweight, and resistant to shattering, making it a popular choice for commercial use. Proper care will help maintain its appearance and longevity. Follow these simple steps to ensure your melamine stays in good condition:

1 Washing and Cleaning

Handwash:

- **Use Mild Detergent:** Clean with a mild, non-abrasive dish soap to avoid damaging the surface.
- **Soft Sponge:** Use a soft cloth or sponge. Avoid using abrasive scrubbers or steel wool, which can scratch the melamine.
- **Warm Water:** Wash in warm water. Avoid very hot water, which can weaken the material over time.
- **Rinse Thoroughly:** Rinse thoroughly to remove all soap residues, which can dull the finish.

Dishwasher:

- **Avoid High Heat:** Use a gentle or eco-friendly cycle. High temperatures can cause warping or discolouration.

2 Drying

- **Air Dry:** Allow melamine items to air dry to avoid potential damage from high heat or abrasive drying cloths.
- **Soft Cloth:** If towel drying is necessary, use a soft, lint-free cloth to prevent scratching.

3 Usage Tips

- **Avoid Microwaves and Ovens:** Melamine is not suitable for use in microwaves or ovens, as it can melt or warp under high temperatures.
- **Avoid Boiling Liquids:** Do not pour boiling liquids directly into melamine containers, as this can cause warping or cracking.
- **Prevent Staining:** Avoid leaving highly acidic or strong-coloured foods (e.g., tomato sauce, coffee) on melamine surfaces for extended periods to prevent staining.

4 Stain and Odour Removal

- **Baking Soda Paste:** For stubborn stains, create a paste of baking soda and water. Gently scrub the stained area with a soft cloth or sponge, then rinse thoroughly.
- **Vinegar Solution:** For odours, soak the melamine in a solution of equal parts white vinegar and water for a few hours, then wash as usual.

5 Storing

- **Avoid Stacking Too High:** Do not stack melamine items too high, as the weight can cause warping or damage over time.
- **Store in a Cool, Dry Place:** Store melamine in a cool, dry place away from direct sunlight and heat sources, which can cause discolouration or warping.
