

Fiesta

Experience the ritual and enjoyment of every glass of wine with Fiesta, the inaugural range of Crown Crystal's Signature collection.

Made in the EU from lead-free crystal glass, Fiesta is built to let wine speak for itself, offering a presentation that enhances the natural colours, aromas, and flavours of every glass.

The bowls are shaped to give wine room to open, tapering toward the rim to gather aroma and carry it to the nose. Select items feature an epicure point, an indentation at the base of the bowl that lifts the true colour of wine and gives the pour a quiet sense of occasion.

Considered in the hand, elegant in the pour, and made for venues where wine service matters.
