trenton

This combo salt shaker and pepper mill offers the convenience of dispensing both salt and pepper in a single, space-saving design, perfect for the dining table or kitchen storage.

Salt is stored in the top section, which features holes for easy shaking. The bottom section holds whole peppercorns and functions as a grinder, activated by twisting the top to release freshly cracked pepper from the base.

To refill either compartment, simply pull the top section upwards to access the internal storage chamber.
